

ADDENDUM #2

CARVER HALL LAB RENOVATIONS BID #50018-210030

May 24, 2021

The purpose of this Addendum is to include the following:

1. Paint ceiling and paint the piping in the ceiling of each lab respectively.
2. Hang overhead data/network wires to tie-in with new renovation of labs; professionally
3. Electrical as needed for Interactive Display Screen

Specifications for assets required:

1. Magnetic Glass Dry Erase Boards - White, 6 x 4'
2. Interactive Display Screen specifications (attached)
3. See LED Light Strip specifications (attached)

Cordially,

Halana A. Miles, MBA

AQUOS BOARD®

Interactive Display Systems

4K Ultra HD LCD Panel with Built-in Controller
Adds More Functionality and Versatility

AQUOS BOARD®

4K

3840 × 2160 Pixels

The PN-L851H/751H/651H AQUOS BOARD interactive display systems are made for show and tell in the digital age. Whatever screen size you choose—85", 75", or 65" Class (84 9/16", 74 1/2", or 64 1/2", respectively)—you get pristine 4K Ultra HD resolution. With a pre-installed controller and built-in whiteboard and wireless functionality, they are always ready for a quick meeting. The touchscreen supports up to 20 touch points at a time. You can use either a finger or the bundled touch pen, which gives a Pen-on-Paper® writing experience. Your group collaborations just got more seamless and intuitive.

Practical Office Technologies

Cutting-Edge Panel Technology

Supporting 4K Ultra HD (3,840 × 2,160) pixel resolution, the LCD panel renders texture and detail of images and small text. From architecture to engineering to graphic arts, these monitors excel in demanding professional settings. The panel boasts new optical technology that uses advanced opto-mechanics and signal processing. It differentiates finger and pen input, so you can write and draw on the screen with intuitive ease. An anti-glare film minimizes fingerprint soiling and reduces reflections. Even in a brightly lit room, onscreen content is easy to read.

Wireless Connectivity

Wireless LAN and Bluetooth® compatibility allow wire-free connection to multiple devices—including smartphones, tablets and computers*. No need for tangled wires or conversion adapters. Each device can project images wirelessly to the monitor. You can then capture the wirelessly projected screen and freely add annotations to it using a touch pen.

*Compatible with Windows® and Android™ operating systems

Built-in Controller with IWB Launcher

The PN-L851H/751H/651H interactive displays have a built-in controller with a new IWB Launcher that makes it easy to operate these all-in-one interactive whiteboards. You don't even need to hook up a dedicated PC. When you start up the main unit, the IWB Launcher is displayed automatically. Simply touch the icons on the screen for instant access to the features you want to use.

Direct Drawing

Switch to Direct Drawing to use the LCD monitor like a regular whiteboard. Even for first-time users, this simple write-and-erase function is a breeze to operate. You can also save screen captures as PDF files, either on internal storage or on an external storage device.

Simultaneous Writing

The LCD panel recognizes up to 20 touch points, so when inspiration strikes, multiple people* can use their finger or touch pen to add input. Meetings, lessons and brainstorming sessions will come alive.

* With Direct Drawing, only one person at a time can write.

Note: When you use Sharp applications on the built-in controller—including IWB Launcher, Direct Drawing, and Wireless Display—content is displayed at full-HD (1,920 x 1,080) pixel resolution.

Pen-on-Paper Experience

When the tip of the touch pen glides across the screen, it feels just like a pen on paper. No skips or delays. Instead, you get a smooth and responsive digital ink experience. Whether you choose a 2 mm or a 4 mm tip, the easy-grip bundled touch pen gives you a comfortable writing feel. And thanks to the pen's angular profile, it won't roll away when you put it on a table.

User-Friendly SHARP Pen Software

The easy-to-launch SHARP Pen Software interface has a menu with smartly arranged icons. These give you easy access to pen settings and other useful functions*. Further handy functions* include access to cloud storage, an e-mail address book, sticky notes and bookmarks.

* Availability varies by country/region. For details, please consult your local authorized Sharp dealer or representative.

MFP Connectivity

Scanned documents can be imported directly to SHARP Pen Software from a compatible Sharp MFP. Onscreen image data—including written notes—can be sent to a PC for storage or to an MFP for printing.

Versatile Installation

The PN-L851H/751H/651H interactive displays are designed to match a diverse range of installation needs. They can be installed in either a landscape or a portrait orientation. With a landscape installation, they can be tilted backwards at 45 degrees or between 0 and 20 degrees*.

* There are restrictions on the tiltable angles and other installation conditions. For details, please consult with your local authorised Sharp dealer or representative.

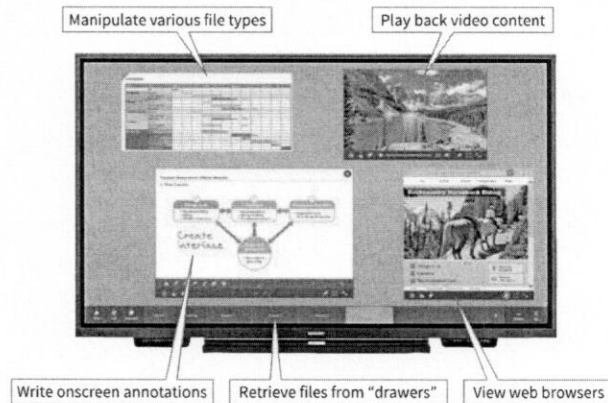

Quad-Screen Display

By connecting four PCs to the monitor, you can simultaneously display four screens at full-HD. You can easily switch between single-screen and quad-screen modes.

Note: Requires video cables.

SHARP Touch Viewer™ Software

This touch-operated onscreen user interface lets you easily manipulate different types of files, including Microsoft® Office applications, videos and web pages. Files are displayed onscreen as "sheets," which can be stored in onscreen virtual "drawers." This convenient software adds a fresh touch to business meetings, in-store installations and more.

SHARP Display Connect™

This software supports multifaceted wireless communication. Onscreen content, including handwritten notes, can be shared simultaneously with up to 50 devices. And devices connected to the monitor can exchange files between themselves.

Note: Available online or via the downloader on the bundled CD-ROM.

4K Interactive Signage

Because it handles the demands of 16/7 operation, the PN-L851H/751H/651H interactive displays bring reliable daily performance to retail, office and many other locations.

<System Requirements>

Connected Equipment

| | |
|----------|---|
| Hardware | PC/AT compatible machine with USB 2.0 port (CD-ROM drive required for installation) |
| OS | Windows® 8.1 (32-bit/64-bit), Windows® 10 (32-bit/64-bit) macOS v10.13, macOS v10.14, Google Chrome™ OS v59 or later |

Supplied Software (Windows®)

| | |
|-----------|--|
| CPU | Intel® Core™ i5-6360U or higher Intel® Core™ i7-6650U or higher recommended |
| Memory | 4 GB or more |
| Hard disk | 5 GB or more free space (additional space required for saving data) |

To use the touch panel, connect the bundled USB cable to the computer. The touch panel operates with the standard driver of each OS. On the Mac, operation is only possible in single-touch mode.

¹ There are restrictions on the tiltable angles and other installation conditions. For details, please consult with your local authorized SHARP dealer or representative. ² Brightness depends on input mode and other picture settings. Brightness level will decrease slightly over the lifetime of the product. Due to the physical limitations of the equipment, it is not possible to maintain a precisely constant level of brightness. ³ Use a commercially available connection cable for PC and other video connections. ⁴ Use a commercially available DisplayPort-certified cable. Some video equipment may not be supported. ⁵ exFAT is not supported. ⁶ The AC power cord is an inlet type. The cable is bundled (3 pins). ⁷ When the monitor is tilted more than 20 degrees upward from the perpendicular in relation to a level surface, the ambient temperature must be within the range of 5°C to 30°C. ⁸ Check the requirements of the computer and other devices to be connected, and make sure that all requirements are satisfied.

FEATURES & SPECIFICATIONS

INTENDED USE — Built on the compact, low-profile Z strip channel, this LED strip offers long maintenance-free life, several color temperatures, lumen outputs and lengths. Ideal for new construction and retrofit applications in T5 and T8 lengths. Ideal for uplight and downlight in commercial, retail, manufacturing, warehouse, cove and display applications. **Certain airborne contaminants can diminish the integrity of acrylic and/or polycarbonate.** [Click here for Acrylic-Polycarbonate Compatibility table for suitable uses.](#)

CONSTRUCTION — Compact-design channel and cover are formed from code-gauge cold-rolled steel. Easy to install row aligner included for continuous row mounting.

Finish: Paint options include high-gloss, baked white enamel (WH), galvanized (GALV), matte black (MB) and smoke gray (SKGY). After fabrication, five-stage iron phosphate pre-treatment ensures superior paint adhesion and rust resistance.

OPTICS — Standard diffuse snap on/snap off lens eliminates pixels, improves uniformity and minimizes glare. L/LENS option available.

ELECTRICAL — L70>60,000hours. Utilizes high-output LEDs integrated on a two-layer circuit board, ensuring cool-running operation. Optional internal pluggable wiring harness for reduced labor cost in row mounting applications. (See PLR_ordering information on page 3.) Electronic LED driver is rated for 75 input watts maximum (see Operational Data on page two for actual wattage consumption), **multi-volt input and 0-10V dimming standard.** This fixture is designed to withstand a maximum line surge of 2.5kV at 0.75kA combination wave for indoor locations, for applications requiring higher level of protection additional surge protection must be provided.

LEDs provide nominal 80 CRI at 3000 K, 3500 K, 4000 K, or 5000 K.

Lumen output up to 2,000 lumens per foot. In 86°F (30°C) ambient environments. Luminaire should be installed in applications where ambient temperatures do not exceed 86°F (30°C).

INSTALLATION — Tool-less channel cover for easy installation.

Fixture may be surface mounted (with or without ZSPRG hanger), pendant or stem mounted with appropriate mounting options. Three-point aligner locks in place for easy continuous row mounting.

LISTINGS — CSA certified to US and Canadian safety standards. For use in damp locations between -40°F (-40°C) and 86°F (30°C).

DesignLights Consortium® (DLC) qualified product. Not all versions of this product may be DLC qualified. Please check the DLC Qualified Products List at www.designlights.org to confirm which versions are qualified.

WARRANTY — 5-year limited warranty. Complete warranty terms located at: www.acuitybrands.com/support/customer-support/terms-and-conditions

Note: Actual performance may differ as a result of end-user environment and application.

All values are design or typical values, measured under laboratory conditions at 25 °C.

Specifications subject to change without notice.

CSA+ Capable Luminaire

This item is an A+ capable luminaire, which has been designed and tested to provide consistent color appearance and out-of-the-box control compatibility with simple commissioning.

- All configurations of this luminaire meet the Acuity Brands' specification for chromatic consistency
- This luminaire is part of an A+ Certified solution for nLight® or XPoint™ Wireless control networks marked by a shaded background*

To learn more about A+, visit www.acuitybrands.com/aplus.

Notes

- Not available with 347V, 480V or Batteries
- Optional. Reflectors ship separately.
- See Operational Data on page 2 for actual lumens.
- Utilizes step down transformer.
- See ordering information on pages 4 and 5 and [rLSXR specification sheet](#) for more configurations. When choosing Sensor and PLR for same fixture, consult the factory.
- Not available with cord sets.
- MVOLT only. Not available with cord sets with plugs. Battery Spec sheet linked for more information.
- Only available with 10,000LM and 14,000LM packages.
- MVOLT only.
- Available with MVOLT, 347V and 480V only. This sensor configuration is suitable for minimum ambient temperature of 14°F (-10°C). See page 6 for low temperature option providing -4°F (-20°C) minimum ambient. Sensors come prewired, they must be snapped into place at time of installation.
- Cordsets exit back of fixture unless OUTEND option is specified. Must specify voltage (not required when ordering CS93W).
- Not compatible with reflector
- Order 2 for tandem double length fixtures (TZL1N).

PRODUCT INFORMATION

Advanced plug-in system with two-circuit capability. Available on industrial and strip products and a variety of architectural products mounted in continuous rows. 1, 2, 3 and 4-lamp fixtures. PLR22 (2-circuit) and crossover harness switches hot circuit serving next fixture in row. Reduces fixture types on job for alternating circuit applications (see example below.)

Easy one-step installation, saves up to 35% on labor costs. Expanded switching flexibility helps save energy.

Rows can be 50% longer with two-circuit systems. Polarized, lock-together nylon connectors prevent miswiring in the field. #12 THHN conductor, rated 600V, 90°C. White neutral wire included. Grounding accomplished by fixture in-row connectors.

CSA certified systems available with up to 2 circuits. G ground required.

Note: Specifications subject to change without notice.

PLR

Wiring

Advanced 1 or 2-Circuit Plug-In

ORDERING INFORMATION Lead times will vary depending on options selected. Consult with your sales representative.

| Series | Number of hot wires | Branch circuits | Dimming | Ground |
|--------|-----------------------------|---|------------------------|--------------------|
| PLR | (blank) Not required for 22 | <u>Circuits to which ballast is connected</u> | | |
| PLR22 | 1 Black | (blank) Not required for 22 or PLR1 | LV Low-voltage dimming | G Ground, required |
| | 2 Black and red | A Black wire | | |
| | | B Red wire | | |
| | | <u>Emergency circuit connected</u> | | |
| | | (blank) No emergency circuit | | |
| | | ELA Emergency circuit wired to black wire | | |
| | | ELB Emergency circuit wired to red wire | | |

Typical Applications

- Multiple-circuit and single-circuit for longer continuous rows
- Multiple-circuit with alternating fixtures on separate circuits, 2-circuit (PLR 22)
- Multiple circuit with night-lights located along row as desired

LSXR — Fixture Mount Occupancy Sensor (see www.AcuityControls.com for additional information)

- Three interchangeable lens options to satisfy multiple mounting heights and coverage pattern requirements.
- Integrated mounting bracket drops lens down 3" from chase nipple.
- Single or dual relay versions — designed with robust protection from the harsh switching requirements of T5 and LED loads.
- Photocell and 0-10VDC dimming options.
- No PIR field calibration or sensitivity adjustments required.
- Sensor ambient temperature rating of 14°F (-10°C) to 131°F (55°C).

| LSXR configuration | Comparable CMRB sensor | Old style sensor nomenclature |
|--|------------------------|-------------------------------|
| For shortest lead times use one of the following LSXR configurations | | |
| LCOZU | CMRB 50 | MSI |
| LCHOSZU | CMRB 50 D | MSID |
| LCPZU | CMRB 50 P | MSIPED |
| LAOZU | CMRB 6 | MSI360 |
| LAHOSZU | CMRB 6 D | MSI360D |
| LAPZU | CMRB 6 P | MSI360PED |

SELECTIONS BELOW WILL EXTEND ORDER LEAD TIME. CONSULT YOUR SALES REPRESENTATIVE FOR DETAILS.

SINGLE RELAY

ORDERING INFORMATION

Example: LAHOSZU

| Series | Lens option | Dimming/Photocell | Max. dim level | Min. dim level | Temp/Humidity | Default occupancy time delay |
|---|-----------------------|---|----------------|--------------------------------|--------------------------------|---|
| L LSXR passive infrared indoor occupancy sensor | A High mount, 360° | O None ¹ | 0 10 VDC | S Minimum dim level of ballast | Z None | I 30 sec |
| | B Low mount, 360° | H High/low occupancy operation | 9 9 VDC | 1 1 VDC | T Low temperature ² | D 2.5 min |
| | C High mount aisleway | P Switching photocell (on/off) ¹ | 8 8 VDC | 2 2 VDC | | X 5.0 min |
| | | M Dimming and switching photocell | 7 7 VDC | 3 3 VDC | | R 7.5 min |
| | | G Dimming and switching photocell with high/low occupancy operation | | 4 4 VDC | | U 10.0 min (with minimum 15 minute on time) |
| | | | | 5 5 VDC | | V 15.0 min |
| | | | | 6 6 VDC | | W 20.0 min |
| | | | | | | Y 30.0 min |

Notes

- 1 Max and min dim levels not applicable with this option.
- 2 Ambient temperature rating of -4°F (-20°C) to 131°F (55°C).

DUAL RELAY (Available with 120, 277, and 347V only)

ORDERING INFORMATION

Example: LA2KZU

| Series | Lens option | Poles | Operating mode | Temp/Humidity | Default occupancy time delay |
|---|-----------------------|--------------|--|--------------------------------|---|
| L LSXR passive infrared indoor occupancy sensor | A High mount, 360° | 2 Dual relay | J None | Z None | I 30 sec |
| | B Low mount, 360° | | K Alternating off relays (promotes even lamp wear) | T Low temperature ¹ | D 2.5 min |
| | C High mount aisleway | | O Alternating off relays w/photocell | | X 5.0 min |
| | | | P Switching photocell(on/off) | | R 7.5 min |
| | | | E Photocell on/off (pole 1 only) | | U 10.0 min (with minimum 15 minute on time) |
| | | | F Photocell on/off - both poles (dual set-point) | | V 15.0 min |
| | | | | | W 20.0 min |
| | | | | | Y 30.0 min |

Example: LENS 50 J100

Notes

- 1 Ambient temperature rating of -4°F (-20°C) to 131°F (55°C).

| Replacement lenses: Order as separate catalog number. | | |
|---|------------------------|---------------------|
| Series | Lens type | Package quantity |
| LENS | 6 High mount 360° | [blank] Single Lens |
| | 10 Low mount 360° | J10 10-pack |
| | 50 High mount aisleway | J100 100-pack |

OPTIONS AND ACCESSORIES

The Z Series fixture offers numerous options for almost every electrical and optical component, including a long list of field-installable accessories.

HANGER CHAIN

36" chain with Y hanger.

Order as:

HC36

Z SPRING HANGER

Snap 'n' lock design requires no fasteners and can be used on T-grid ceiling or universal mounting systems.

Order as:

ZSPRG

ZACVH HANGER

10' Aircraft cable with Y hanger.

Order as:

ZACVH

ANGLE MOUNTING BRACKET

Luma-tilt™ angle bracket ships as a pair

Order as:

ZLANGBKT

WIRE GUARD

Order as:

WGZ24

WGZ48
